it — Abbiamo guardato i nostri progetti più belli da un'altra angolazione: quella del dormire. Ne abbiamo rispettato il linguaggio estetico e mantenuto le funzioni intelligenti che li contraddistinguono. La linea Pixel, morbida a tutti gli effetti, offre un unico volume arrotondato; i letti New York esibiscono la loro eleganza retrò con un'anima contemporanea. La collezione Limes, che a prima vista sembra un'isola galleggiante, invita ad andare oltre le convenzioni di spazio e forma predefinite ed infine il letto Avant-Après che grazie alle sue testiere mobili può assumere configurazioni sempre nuove.

en — We have looked at our most beautiful projects from another perspective: that of sleep. We have respected the visual language and maintained the intelligent functions that distinguishes them. The Pixel line that in its soft entirety offers a single comforting volume; the New York beds exhibit their retro elegance with a contemporary soul. The Limes collection, appears to be a floating flexible island, that initiates a conversation to go beyond predefined spaces and forms and finally the Avant-Après bed that can be constantly rearranged thanks to its movable headboards.

La ligne Pixel, moelleuse à tous les égards, offre un volume arrondi unique ; les lits New York exhibent leur élégance rétro avec une âme contemporaine. La collection Limes, qui évoque à première vue une île flottante, invite à aller au-delà des conventions d'espace et de forme prédéfinies et le lit Avant-Après, grâce à ses têtes de lit mobiles, peut prendre des configurations constamment nouvelles.
